

Edify Data Science - Project Portfolio

Healthcare & Life Sciences Projects

- PharmaVision AI: Accelerated drug discovery with deep learning, graph neural networks, and automated virtual screening. Reduced timeline by 40%, saved \$2.3M.
- Clinical Trial Intelligence: Automated clinical data management and regulatory submissions. Reduced data cleaning time by 60%, improved recruitment by 35%.

Financial Services & Fintech

- FraudGuard Pro: Real-time fraud detection with ML, handling 50M daily transactions. Detected 99.2% fraud, reduced false positives by 45%.
- Credit Risk Platform: Modernized credit scoring using alternative data and explainable AI. Improved approval accuracy by 28%, reduced defaults by 15%.

Manufacturing & Industry 4.0

- SmartFactory Analytics: Predictive maintenance and quality control across multiple sites. Reduced downtime by 52%, improved quality by 23%, ROI 340%.
- Supply Chain Optimization: Graph-based supply chain modeling improving delivery and cutting costs by 18%.

Retail & E-commerce

- PersonalShop AI: Personalized recommendation engine boosting click-through rates by 45%, conversions by 32%, and customer retention by 20%.

Healthcare Analytics

- MedInsight: Hospital operations analytics optimizing patient flow and clinical outcomes. Reduced length of stay by 12%, improved OR utilization by 28%.

Awards & Recognition

- Best AI Innovation Award - Kerala Startup Mission (2024)
- Excellence in Healthcare Analytics - Indian Analytics Congress (2024)
- Top 10 Data Science Companies in South India - Analytics India Magazine (2023)
- Innovation in Clinical Research - Indian Pharmaceutical Congress (2023)
- Digital Transformation Excellence - CII Industry 4.0 Awards (2024)
